Eric V. Zimmerman: Lending a Hand

This Spring, Regis Group Associate Eric V. Zimmerman took up the challenge of managing the high school softball team for his daughter's high school, Leesburg Christian School. The school, which has long been formidable in baseball, had not fielded a softball team for over five years due to the lack of individuals who were able or willing to coach the group of girls.

Having coached his two sons many years, Mr. Zimmerman felt that coaching his daughter's softball team was a task he could handle and consequently offered his services to the school's Athletic Director.

Though the team included some girls who had no previous experience playing softball, the team flourished and finished the regular season with a winning record and even won the opening round of the state tournament.

Mr. Zimmerman's is greatly committed to his community and lending a helping hand where one is needed.
